These five kingdoms were Monera, Protista, Fungi, Plantae, and Animalia. Let's learn about the plant kingdom, i.e., Kingdom Plantae. Let us have a detailed look at the plant kingdom notes provided here for the conceptual understanding of the topic. Also read: Kingdom Animalia, Plantae And Viruses.

### **Plant Kingdom - Classification and Characteristics**

The word dichotomous comes from two Greek words that mean divide in two parts. To make a dichotomous key you will choose physical characteristics that can be used to divide a collection into two parts. Possible physical characteristics to use include plant size, plant shape, leaf shape, stem type, color, and presence of seeds, fruits or flowers. You will continue to divide each group in two until all of the groups have only one member.
