helps us make accurate and informed judgments about how other people are likely to respond to us. At the same time we are exercising our person-perception skills on other people, those same people are also using their powers of person perception to form impressions of us.

6.5 Chapter Summary - Principles of Social

Get Free Chapter 6 Perception Psychology

Perception refers to the way sensory information is organized, interpreted, and consciously experienced.

Perception involves both bottom-up and top-down processing. Bottom-up processing refers to the fact that perceptions are built from sensory input. On the other hand, how we interpret those sensations is
