**Dark Vanishings Discourse On The**

"Patrick Brantlinger's argument in Dark Vanishings is straightforward: from 1830 onwards, economists, pioneering anthropologists, natural scientists and literary writers believed that 'primitive' peoples were doomed to extinction.... Belief in the inevitability of the natives' fall assuaged guilt about the depopulating effects of colonialism....

cannibalism were regarded as simultaneously noble and suicidal, accelerants of the downfall of other races after contact with white civilization.

## **Dark Vanishings: Discourse on the Extinction of Primitive**

...

Dark Vanishings traces the early nineteenth-century consolidation of extinction discourse in the new materialist sciences of natural history (decisively, Lyellian geology), ethnology, and Malthusian political economy. Brantlinger argues that the Darwinian revolution, a paradigm shift taken for granted by modern commentators, changed some of the terms informing the discourse, such as racial essentialism, but not the discourse itself, which if anything it reinforced.
