### Genetics Punnett Squares Practice Packet

100 Points Genetics: Punnett Squares Practice Packet Bio Honors Most genetic traits have a stronger, dominant allele and a weaker, recessive allele. In an individual with a heterozygous genotype, the dominant allele shows up in the offspring and the recessive allele gets covered up and doesn't show; we call this complete dominance.

### Ms. Doran's Biology Class - Home

Genetics Packet – Punnett Square Practice KEY Basics 1. The following pairs of letters represent alleles of different genotypes. Indicate which pairs are Heterozygous and which are Homozygous. Also indicate whether the homozygous pairs are Dominant or Recessive (\*note heterozygous pairs don't need either dominant nor recessive labels.)
