International Institutional Law - Sixth Revised Edition ...

International institutional law is characterized by a high dose of functionalism. It is built around the idea that organizations are created to exercise tasks or functions that their member states cannot perform alone or sometimes might be reluctant to perform on their own. As an explanatory device, this has proved rather fruitful.

International Institutional Law - Unity within Diversity ...

International organizations often have to compete with those very states that created them. This complicated relationship often leads to some uncertainty in the law relating to international organizations: the legal argument of an organization will often be counterpointed by an equally valid argument from a member state.
