New Health Guidelines

The new guidance could give state officials cover if their requirements for businesses are challenged in the courts, said Lindsay Wiley, an American University public health law expert.

Health officials ready new guidelines as restrictions ease

Public health recommendations have been updated to accommodate new scientific evidence, evolving epidemiology, and the need to simplify risk assessment. New recommendations are based on: Growing evidence of transmission risk from infected people without symptoms (asymptomatic) or before the onset of recognized symptoms (presymptomatic);
