A Handbook for Teaching and Learning in Higher Education A Handbook for Teaching and Learning in Higher Education is sensitive to the competing demands of teaching, research and scholarship, and academic management. Against these contexts, the book focuses on developing professional academic skills for teaching.

A Handbook for Teaching and Learning

The concept behind tutoring is that the tutor's goal is to get the student to learn on their own—the tutor acts as a guide without providing lectures unless absolutely necessary. A tutor should provide feedback but shouldn't make specific corrections — they should lead the student to find the correct answer.

Remember – tutoring will not benefit you if you do not also spend a sufficient amount of time on your own with your subject, attend class regularly, and do assigned work. If you need help in a subject for which there is a great demand for tutors, you may be asked to be in a small group instead of a one-on-one tutoring situation.
