connection for process, power, and instrumentation applications where both flanges and tube fittings are used. These adapters utilize a ANSI Flange connection on one side and a tube fitting connection on the other side. These offer easy make-up and excellent performance in tight, multi-connection applications.

Weld Neck Flanges
Class 150 attach to
system via a
circumferential weld at
the neck. The welded
area can be easily
examined by
radiography. Matched
pipe and flange bore
reduces turbulence and
erosion inside the
pipeline. Excellent in
critical applications.
