Software Design Document - OASIS Apr 20, 2007 · Software Design Document 1 Introduction The Software Design Document is a document to provide documentation which will be used to aid in software development by providing the ...

## **[DOC] Writing Software Design Documents**

The purposes of a software design document are to: explain what you're going to do (or did, if you're back-filling), and. demonstrate that it is a complete solution to the problem you're trying to solve. To do the latter, you need to actually state what the problem is that you're trying to solve. You might think it's obvious and will be obvious to your peers, but I have seen more than a few design reviews stall right there, when
